COMMENCEMENT SPEAKERS

Congresswoman Shontel M. Brown is a relentless public servant, committed to delivering results for the people of Ohio's 11th Congressional District of the U.S. House of Representatives. She brings a collaborative, dynamic and problem-solving approach to Congress, where she works to attract jobs that pay fair wages to Northeast Ohio; improve access to affordable, high-quality health care; ensure equity and justice for all Americans; and improve the quality of life of all people living in her district.

Across her career in public service, Congresswoman Brown has promised to always put the people first. She consistently works to strengthen our public education system, improve the health of children and families, ensure that no American goes hungry, improve protections for Ohio workers and address the poverty crisis.

A proud, lifelong Clevelander, Congresswoman Brown has served the people of Northeast Ohio for more than a decade. She first entered public service in 2012, when she was elected as a Warrensville Heights city council member. In 2014, she was elected to represent the 9th district on the Cuyahoga County Council, where she earned a reputation as a proven and unifying leader.

Before her election to public office, Congresswoman Brown worked in the private sector as a marketing professional. She also founded a small business based in Northeast Ohio that provides technology solutions to regional clients.

Congresswoman Brown currently resides in Warrensville Heights, Ohio.

Timothy Alexander is a best-selling author, award-winning speaker and life coach who thrives at the intersection of character development, counseling and mentorship. A native of Birmingham, Alabama, Alexander attended Erwin High School and was ranked the #8 high school football player in the state. Alexander had the opportunity to play for any college in the country; however, a life-changing car accident in 2006 left him paralyzed from the neck down.

Though paralyzed, Alexander found purpose at The University of Alabama at Birmingham (UAB), where he double majored in criminal justice and communication management. He was the first paraplegic to receive a football scholarship. He was runner-up for Mr. UAB, a member of Omega Psi Phi and the former president of UAB Gang Green. He received the Student of Excellence Award for his academic and athletic performance and the Colonel Leo Thorsness Courage Award. Alexander also led the 2014 #FreeUAB movement, gathering community support and raising more than \$40 million to reinstate cut UAB football, bowling and rifle programs.

On July 18, 2016, Alexander was able to stand up on his own for the first time since being paralyzed. The video of him standing went viral, catching the eye of ABC National News, TMZ Sports and other news stations worldwide. He was nominated as the sports program feature for the 31st Midsouth Regional Emmy® Awards and on Jan. 21, 2017, he was named the Emmy® Awards winner.

Today, Alexander uses his triumph over adversity to inspire and motivate. "We don't need it to be easy, we just need it to be possible."

HONORARY DEGREE RECIPIENT

Lily Ng, Ph.D., was a professor at Cleveland State University for 18 years. During her tenure, Ng served as chair of the chemistry department, director of the graduate program in chemistry, founding director of the CSU-Cleveland Clinic Molecular Medicine Program (now the Cellular and Molecular Medicine Specialization), helped revive the chemistry teaching course and mentored countless students along the way. Ng has been actively involved in Iota Sigma Pi National Honor Society for Women in Chemistry and the American Chemical Society for more than 20 years, as well as numerous committees.

Amidst her committee duties, scientific contributions, research and teaching, Ng supported the Cleveland community as a tutor for college and high school students, acted as a judge for the regional science fair, taught chemistry at Shaker Middle School for one day each year and visited libraries and schools for National Chemistry Week demonstrations every year.

Ng retired from CSU in 2009 and shortly after moved to Minneapolis, Minnesota, to be closer to her daughter. She remained active as an independent science education consultant, helping undergraduate students prepare for graduate school or the workforce. She also advocated for environmental issues and development of alternative energy, as well as STEM education for female and minority students.

For her service and educational excellence, Ng has received many honors and awards over the years, from “Women Who Make a Difference” and “Distinguished Service” awards at CSU to recognition in *Ohio Magazine* for “Excellence in Education.”

Today, Ng has slowed down somewhat. She continues to be very active in Iota Sigma Pi, serving as National Historian and on juries for national awards. She also serves on the board directors of her senior housing cooperative, acts as the resident tech guru and spends as much time as possible with her grandson.
