

How to map a drive for Mac OSX

7/19/2018

Step 1

To begin mapping a drive, click on 'Go' in the top bar while you are at your desktop. Then select '**Connect to Server...**'

Step 2

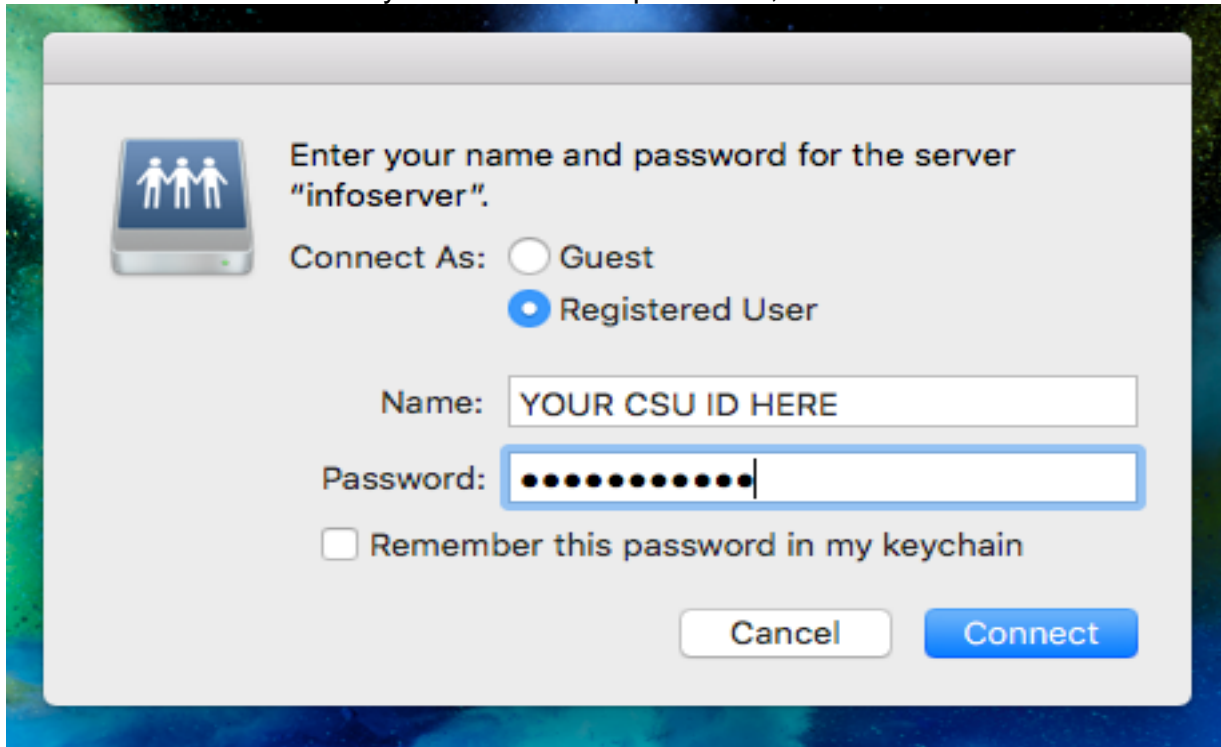

In the Server address box, type in "smb://ServerName/FolderName" and then click on the '+' to add it as a favorite server. Click '**Connect**'.

Step 3

You will be asked to enter your CSU ID and password, then click **Connect**.

After clicking **Connect**, your newly mapped drive will open up and be listed under 'Favorite Servers'.

Reporting Problems

If you have any problems during the installation or use of the VPN client, please email security@csuohio.edu and include a thorough description of the problem (attaching screen prints would be helpful).
