

Did you know ?

You pay less for coffee when you bring your own mug.

the price difference

	CSU cafés	Café Ah-Roma	Constantino's at the Edge
small	1.79	1.50	1.75
medium	2.09	1.75	1.90
large	2.39	1.99	2.15
b.y.o. mug	1.29	1.25	0.99

Just tell the barista you'd like a coffee refill. Basically, they'll charge you for the cost of the coffee and not for the cost of the cup. It's the discount we deserve for being **environmentally conscious** citizens as well as **coffee-guzzling** college kids.

What about Starbucks?

Starbucks provides a 10 ¢ discount off any size coffee when you bring your own mug.

In fact, most places that sell coffee will give you a discount for using your own container, including gas stations and convenience stores.

We've all seen these garbage cup towers before...

Even paper cups, which are normally lined with plastic, take up space in landfills after being used only one time. And, no, they're not recyclable. So show you care and refuse them whenever you can.

Carry a reusable mug with you to reduce waste and save money!!
