

Data Tethering Services/Mobile Hotspot

Data tethering is a technique in which a cell phone is used as a wireless modem to provide Internet access to a computer or other Wi-Fi-enabled device, like a tablet or laptop.

Available Plan for the Phone (either iPhone or Android)

Monthly Charge	Included Minutes	Data	Text Messaging	Notes
\$45.99	Unlimited	Unlimited includes mobile hotspot/tethering	Unlimited	No roaming or long distance charges. Data usage is internet/email

The plan on the phone can be changed at any time.

To change the plan on your cell phone, you can either open a ticket in Service Now or send an email to telcom@csuohio.edu
